

# thinking out loud

## workshop outline

This workshop will get your pupils up on their feet from start to finish. It uses drama based games to explore many aspects of **critical thinking**.

- **‘in groups of ...’:** a rapid exploration into group dynamics and seeing how working in different size groups is possible
- **blind trust:** using trust games to learn how important it is to be able to trust the people you work with and how trust is a two way thing
- **whisper instructions:** a hilarious look at how listening is active not passive
- **common ground:** a quieter exercise that reaches into the area of compromise to find a common solution that all are happy with
- **exploring differences:** this actively looks at how different people work in different situations
- **time for a commercial break:** this closing activity pulls together all that has been covered so far as the participants work in groups to create and present a 30 second TV style commercial
